The Recent Capture of Arms near Memphis—Arrest of Olmstead, the Defaulting Postoffice Clerk—Presents to the Government from the Queen of Madagascar.

[By Telegraph to the Pittsburgh Gazette.]

WASHINGTON, October 19, 1868.

THE ARMS CAPTURED AT MEMPHIS.

The arms recently captured on the Mississippi River were, as known to the War Department, privately purchased by the Governor of Arkansas and United States Senator McDonald. They expected the Legislature would appropriate the necessary money to buy the arms from them. The Governor's telegram to the Secretary of War, that he is satisfied armed resistance to the laws is contemplated, occasions much comment among prominent officials, who say they cannot understand why he should entertain such fears, as he himself states the arms were thrown overboard by the captors.

ARREST OF DEFAULTING PAY CLERK OLMSTEAD.

A dispatch was received this morning at the Treasury Department announcing the arrest at Richmond yesterday, by a special agent of the Treasury, of E. D. Olmstead, a defaulting Pay Clerk of the Postoffice Department. He will be brought to this city to-night.

PRESENT FROM THE QUEEN OF MADAGASCAR.

The Queen of Madagascar has presented to the Government several beautifully wrought and very costly fabrics of heavy silk and other material, probably intended for table or bed spreads. She also sends a silver-plated coffee urn. The Government will suitably acknowledge the compliment.

THE DEMOCRATIC CANDIDATES.

A Washington special to the *Evening Chronicle*, says: The members of the National Democratic Executive Committee, now in this city, called on Mr. Chase, on Saturday, to see if he would accept the nomination of the Democratic party for the Presidency. The Chief Justice replied that he feared there was no chance of success if a change were made at this late day, but that he would place himself entirely in the hands of the Committee. It was afterwards determined that a meeting of the Executive Committee should be held in Philadelphia this week, if Mr. Belmont would agree, and Chase should be nominated for the Presidency with either Hancock, Hendrieks or McClellan for the second place. It was desired that Blair should be dropped.

It is said that Judge Chase favors the nomination of McClellan and Hendricks, as he believes such a ticket would carry Pennsylvania and Indiana.

Mr. Johnson and Mr. Seward appear to favor Mr. Chase's nomination.

THE SOUTH.

Opinion of John Quincy Adams—He Thinks the Election of Gen. Grant Inevitable.

[By Telegraph to the Pittsburgh Gazette.]

PETERSBURG, VA., October 19.—In a conversation with John Quincy Adams, who was on his way home, he said the Southern people were as loyal as any people in the North. The two races he found friendly disposed towards one another, and the negroes were peaceable in all cases except where they were influenced by Carpet Baggers. Nothing was calculated to do greater harm than the disfranchisement of the whites, which was more extensive than he had any idea of, and if the people of the North could see the condition of the South as he did, reconstruction would soon go the wall. The negro now ruled the South despotically, but that would not last, for when the people were properly appealed to on that question, the North would never submit that ten of our best States should be governed by an ignorant and semi-barbarous race.

On the subject of the Presidency, he said it was now too late to change the candidates, as the election of General Grant was inevitable, and such a movement would materially damage the interests of the Democracy. He never believed that Mr. Chase would have carried the day against Grant, and certainly not now, nor was there, he thought, an available man in the field even if time were afforded, He condemned the platform of the Democracy worse than the candidates, and thought the only issue upon which they should have gone before the people was reconstruction. He considered it very unfortunate that such men as Wade Hampton, Forrest and men like them, ever participated in the campaign. From the administration of General Grant he had the best hopes that peace would be restored and the question of negro domination and consequent ruin in the South be speedily disposed of and ere long we would be living under the Constitution as it was.

As regards his own chances for the Governorship of Massachusetts, he said his nomination was more of a compliment to him than anything else. He had no idea of being elected,

NORTH CAROLINA.

The Approaching Election—Action of Gov. Holden in Relation to the Militia—Robberies by the Ku-Klux—Distribution of U. S. Troops in the State.

(By Telegraph to the Pittsburgh Gazette.

RALEIGH, October 19.—Both political parties have full Electoral and Congressional tickets in the field, are working vigorously, and look for success in the coming election.

Gov. Holden has suspended the order for organizing a detailed militia.

Gen. Miles has distributed the Fortieth United States Regiment as follows: Two companies in Raleigh, two in Goldsboro, one in Weldon, one in Plymouth, one in Fayetteville, one in Charlotte and one in Greensboro—all colored troops. One company of white troops, belonging to a heavy artillery regiment, and armed as infantry, arrived here from Fortress Monroe on Saturday.

There have been several robberies of money, &c., by armed disguised squads recently in this State. Governor Holden professed only a desire and purpose to preserve order and protect the State, and the Democrats disclaim all desire or purpose to interfere with the sufirage of the blacks. They declare they will not interfere or change the State Government, except by ballot, but Republicans seem to think otherwise.

NEW YORK CITY.

(By Telegraph to the Pittsburgh Gazette.]

NEW YORK, October 19, 1868.

It is stated that leading Southern Democrats have issued an address, requesting Seymour and Blair to resign in favor of Chase and Franklin.

George Francis Train has been notified by cable of his nomination to Congress in the Fifth District in this city. The committee urged him to pay the claims against him and to return at once. The committee yesterday received a dispatch accepting the nomination, and stated that he had offered the money to pay all the claims, and it had been refused, as his imprisonment is for purely political reasons.

The *World* says a party cannot subsist upon vaporing and make believe. Unless we change the aspect of the canvass we shall have a repetition in November of the result like that which has overtaken us in the preliminary contest. If anybody tells the people that things look well as they stand, that nothing which could now be done would better them, he is in the first case dishonest, and in the second mistaken. Governor Seymour now can aid us much, but General Blair can aid us far more, and in a different way, by a chivalric action superior to all eloquence.

The steamships City of Boston, from Liverpool, and Columbia, from Glasgow, arrived this morning.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, October 19.—The United States Indian Commission, appointed at a public meeting of the citizens last May, held its session this morning to listen to the report from Bishop Whipple, of Minnesota, on the present condition of the Indians of the United States territories. The address contained a startling array of facts as to the injustice and long continued ill-treatment of our people towards the Indians. Rev. Drs. Bellows, Osgood and Bishop Hempel also addressed the meeting, the latter demonstrating the result of the humane treatment of six tribes, in this State, as evidence of the capacity of the Indians for improvement. After the adoption of a resolution asking Congress to give Bishop Whipple a hearing at its next session, the meeting adjourned to meet at the call of the Secretary.

LOUISIANA.

Newspaper Office Sacked—Police Imbroglio—Assassination of Colonel Pope—Action of the Legislature for the Arrest of the Murderer—Governor's Veto Against Issuing of Bonds Sustained by Legislature.

[By Telegraph to the Pittsburgh Gazette.]

NEW ORLEANS, October 19.—A dispatch received to-day from Franklin, Louisiana, states that the office of the *Attakapas Register*, published in Franklin, St. Mary's Parish, was sacked last night, the press destroyed and the type scattered. The editors and printers left for New Orleans this morning. The dispatch says the citizens of Franklin and the surrounding country are doing all in their power to preserve order. The negroes are making very bold threats, but have not made any attempt to carry them into execution. The town and parish are quiet at present.

The city of Jefferson, adjoining New Orleans, has been considerably excited for several days past over a police imbroglio in that parish, which has been included in the lately created Metropolitan Police district. A force was appointed and sent to take charge of that place, but the existing authorities refused to surrender the city property, intending to have the matter settled in court. The Metropolitan Police made several unsuccessful attempts to take possession by force, making no appeal to the court. They finally established a station of their own, and placed policemen on the beats. A number of the latter, together with a Metropolitan Captain of Police, were arrested, but released on bond last night.

Rumors are afloat that the Metropolitan police intend to take forcible possession of the police station houses. This the existing authorities will resist. The Jefferson City authorities, who were elected at a recent election, are willing to submit to judicial decision, but refuse to surrender otherwise.

NEW ORLEANS, October 19.—The body of Sheriff Pope, of St. Marys Parish, who was killed on Satuday night, arrived here this evening in charge of his wife, *en route* to Pana, Christian county, Illinois, his home. Pope was formerly Colonel of the 29th Illinois Regiment. No clue to the assassin has been obtained. Reports that families were leaving the neighborhood through fears of violence, appear to have been unfounded. Persons who arrived from that parish this evening say no one has left on that account, and quiet now prevails, though considerable excitement and apprehension existed at first. Both Houses of the Legislature to-day passed a bill appropriating ten thousand dollars reward for the detection of the perpetrators of the Franklin assassination.

The House sustained the Governor's veto of the bill authorizing the city to issue $5,000,000 of bonds, principal and interest payable in gold, to be placed on the market, and the proceeds applied to the redeemption of the city currency. The vote stood fifty to twenty-seven. The veto meets with universal approval. To-morrow is the last legal day of the session.

Tammany Hall Committee Resolve to Support Seymour and Blair.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, October 19.—The Tammany Hall General Committee held a meeting, this evening, and ordered primary meetings in view of the reported withdrawal of Seymour and Blair. An address was unanimously adopted eulogizing those candidates of the Democracy, and expressing a belief in the success of the cause, saying the pending contest is preeminently one of capital against labor, of money against popular right, and of political power and struggling interests of the masses, and calling for the relaxation of no effort to secure a tremendous majority for the electoral ticket.

Court of Quarter Sessions.

[Before Judge Mellon.]

Court met at the usual hour yesterday morning, and the following business was transacted:

PLEAD GUILTY.

Henry Been and John Schauers were arraigned and plead guilty to an indictment charging them with assault and battery, committed upon Louis Seigrist. The assault was committed on the 11th day of last August, in the First ward, this city. The defendants met the prosecutor in Allegheny City, and catching him by the coat brought him over to this city. Not wanting to come, he resisted, and as a consequence was roughly handled. The prosecutor resided at Fredom, Beaver county. The Court sentenced the defendants to pay a fine of one dollar and the costs of prosecution.

James Hodgepath was tried on an indictment charging him with assault and battery, founded on the oath of Daniel Shallenberger. The assault occurred at Buena Vista on the 9th of July last, and the prosecutor testified that the defendant visited his premises and knocked him down, and afterwards tried to kick him The jury returned a verdict of not guilty, and ordered the defendant and prosecutor each to pay one-half the costs.

James Hardy, a boy, was then arraigned on an indictment charging him with the larceny of a watch from the establishment of Sands & Reineman, No. 30 Fifth avenue. The information was preferred by Lawrence Sands, a member of the firm, and the larceny was committed on the 2d of September last, The jury returned a verdict of guilty, and recommended the prisoner to the mercy of the court.

Cyrus Trump was next placed on trial for the larceny of a lot of jewelry, &c., from the establishment of J. W. Simonton on Liberty street. Some time during the month of September, Mr. Simonton's establishment was broken into and robbed of goods to the amount of about $200. The police officers suspected Trump of being concerned in the robbery, and subsequent developments led to his arrest. A letter found in his possession, and addressed to a young woman named Lapra Miller, aided the officers in recovering most of the jewelry, which the girl Miller alleged Trump had given her. Laura left the city, but was arrested in Cleveland, and brought back some days ago by officer Gumbert. Verdict guilty.

Two lads named Matthew Cready and John Hughes, were placed on trial for the larceny of a watch and thirty dollars in money from the store of Mr. Ackerman, No. 28 Wylie street. The theft was committed about three months ago. The lads were shortly afterwards arrested by a policeman, to whom they confessed to the commission of the offense, and stated that they had thrown the watch into the river through fear of detection. Jury out.

Between eleven and twelve o'clock last night the central bell sounded an alarm of fire, which proceeded from box 31, Neptune Engine House. The cause of the alarm was a slight fire in the wholesale tobacco store of L. A. Harton, 191 Smithfield street. It appears that the store had been closed about nine o'clock last evening, and that there was a fire burning in the stove, the door of which was left open, and a coal falling out on the floor, set it on fire. Fortunately some one passing discovered smoke issuing from the door, and the alarm was immediately given, to which the Fire Department responded promptly. The engines were not called into service, however, as the flames were subdued before they arrived on the ground. The damage was very trifling, and was principally caused by water.

They Voted as They Shot.

At the election just closed in Pennsylvania, ninety-nine out of every one hundred soldiers voted the Republican ticket. They voted thus to be true to their records as brave men, and to avert another great civil war. They could not vote for Ent, because he forfeited their confidence by associating with a party which had denied and still continues to deny the elective franchise to men while in the field defending the honor of the Government. This temper of the soldier's vote is one of the grandest exhibitions of the age. It illustrates the purity of our principles, the patriotism of our men, and the safe hands into which the Government is now passing. All honor to the soldiers who help to win Republican victories. *Guard.*

Sun Beams.

"Seymour is a good man; a good man to live at Utica; a good authority on watermelons; he has a large stock of copper on hand, and might go into the copper trade. He is a good candidate to withdraw. He said when he accepted that he could not accept with honor.

"As for Blair—we don't think it is a good season for Blairs; they seem to be troubled with the blight. To give them their due, however, it must be admitted that they don't hurt a party much if they don't belong to it.—*N. Y. Sun.*

National Methodist Sunday School Convention.

[By Telegraph to the Pittsburgh Gazette.]

SPRINGFIELD, Mass., October 19.—The National Methodist Sunday School Convention continued its sessions to-day. Rev. C. H. Fowler, of Chicago, preached a sermon to-night, and reports were submitted showing the present number of Methodist Sunday Schools in the United States to be 15,895; teachers and scholars, 1,335,491, being an increase of 78,955 during the year.

John Quincy Adams passed through this place to-day on his way to Boston.

—A friend of Mr. Seymour, residing in Philadelphia, has received a letter from the Democratic candidate for President, expressing a desire to withdraw from the canvass. It is quite probable that the Democratic Executive Committee, which meets in Philadelphia next Friday, will nominate General Hancock for President, although McClellan and Hendricks are becoming prominent as available candidates.

FACES.

A terror is in the city,
By night and by day,
And whenever that terror passes
I tremble and pray,
And the eye of my soul closes swiftly
To shut it away.

Not the sneer of the worldling,
The smirk of the saint,
Not the poor lost women
With the smile of paint,
But faces, and ever faces,
With a warning faint.

Faces, and ever faces,
They pass on the stream,—
Piteous human faces,
Like things in a dream;
Morning and night, and most awful
In the gaslight gleam.

Faces, terrible faces,
With a tale unsaid,
Fixed human faces
Whence the light has fled;
Faces, and ever faces,
Where the soul is dead.

Faces, lost pale faces,
Of the rich or the poor,
Faces of hearts where meanness
Hath eat to the core,
Faces,—the signs of spirits
That muse no more.

The sadness of these faces
Is sad beyond belief,
Meaner than the shrill sorrow
Of the harlot or the thief;
The gladness of these faces
Is sadder than their grief.

O, there seems hope for evil,
Though bloodiest crime befall—
But life that hath neither beauty
Nor foulness,—it is so small!
Alas, for the frozen spirits
That do not stir at all.

They gather the gold and raiment,
They buy and they pay;
But, ah! at the glimpse of their faces
I tremble and pray,
And the eve of my soul closes quickly
To shut them away.

ROBERT BUCHANAN.

EPHEMERIS.

—House rents are going down in Chicago.

—Grace Church, New York is valued at $600,000.

—A brig full of pea nuts from Africa arrived last week in Boston.

—Raccoon meat is a much sought delicacy in the Boston markets.

—American sleeping cars are to be introduced on German Railroads.

—The private coachman of the Emperor of Russia was a count and now he is dead.

—Monday is the day of the moon. Tuesday the day of the choose, i. e. election day.

—American missionaries are working hard at the church in Tarsus, the birth place of the Apostle Paul.

—Virginia has added earthquakes to her list of amusements. Two were felt at Floyd Court House the other day.

—Minnesota evidently wants an invoice of English sparrows, for she complains loudly of the dearth of small notes.

—Polished metal anklets are the latest dodge. Dresses are still to be worn short, so as to show the metal of the wearers.

—Owners of Nevada Mining Stock are trying to get up a silver mania, but have'nt, as yet, been as successful as they might have been.

—$35,000,000 is the annual income of the British royal family. Like the Democratic party it is a useless expense for keeping up a show.

—Seymour is a prophet. Some time ago he said: "God bless you, but your President I cannot be." There's many a true work spoke in jest.

—Ristori talks of again coming to America. She would do better if she would wait four or five years, in order that a fresh stock of enthusiasm might gather.

—Edwin Forrest played in New York on the night of Monday, the 12th inst., and then took the mid-night train for Philadelphia, where he voted and then returned in time to play his next night in New York.

—We are indebted to one exchange for the following two:

The Tobacconist's "Last Trump Card"—John Anderson's Sol-ace.

The Miller and his men—John Morrisey and his constituents.

—The French and Prussian armies are nearly equal in strength. France has 1,300,000 men organized and ready for service at short notice. Prussia has an army of 1,130,000 soldiers in the same state of efficiency.

—A lady in Baltimore having heard that two cents put out at interest for 2,000 years would pay the national debt, has forwarded the necessary capital for the experimnent to Secretary McCulloch to be invested in the best manner.

—The list of subscribers to Brick Pomeroy's two papers has dwindled considerably. It is hinted that the two together havn't more than 100,000 subscribers, whereas three months ago Brick boasted a circulation of 250,000 for the La Crosse paper alone.

—A Paris newspaper describes a new rifle, just invented there, which can fire twenty balls in one second. The editor very aptly remarks that it is most singular that when the population of France is, in many parts of that country rapidly diminishing, it is the very time when the greatest amount of ingenuity is applied to increase the means of destruction.

—The Tanners of Chicago are working as hard now as they did before our election. We hope that success will not create apathy among our friends here. What the Democrats want is to make us believe they are going to back out of the contest altogether, and in the meantime move heaven and earth to bring every vote they can into the field in November. What we want is to have every voter out in the field and elect Gen. Grant by the largest popular majority ever given to a candidate.

—A French Academician has discovered a new cure for mad dogs. It is on the Hahnemann principle. A mad dog should be bitten by a viper so that the two viruses can counteract each other. All persons fearing hydrophobia should carry a copperhead or rattle snake about them to be used in emergencies. The only trouble is that the copperheads were so terribly scotched on Tuesday that they may never revive sufficiently to redeem themselves by at length becoming, in this way, of some use in the world.

—It is a pity that religious bodies will not make up their minds, in sending missionaries, that it is better not to send any, if one fit for the position is not found. We have seen missionaries, who have spent years abroad, and who have come home wondering at their failure, but we have not wondered. We have in our minds eye now one whose skin and habits were dirty, whose mental capacity was of the weakest discription, whose manners and whole appearance were repulsive, and yet he was sent to Africa, spent years there, and came back astonished at his lack of success, and at his luck in escaping from a canibal tribe which he had visited. We were not astonished at all. Sending such men is a mere waste, of money which for such purposes is often scarce, and of opportunities which are scarcer.

—The distillers of Southwick have made the following sharp calculation. On account of the $400 annual tax, they have shut down until the 1st of May, at which time they will pay the sum required, and then still the cider made this fall, and that of next fall in its season, all under one payment.

—The Threshing Machine Works at Dayton, Ohio, employ more than one hundred hands, and turn out about four hundred machines each year. These works cover two acres of ground, and employ one hundred and fifty agents in various parts of the country. They manufacture the Pitts machine.

—Winslow Jones has four or five establishments for canning fruit and vegetables in Maine. At two of these factories, in Westbrook, he has put up a million cans of green corn, and at Bridgton, Yarmouth and Kendalls mills, six hundred thousand more. Last spring he put up one hundred thousand pounds of lobsters, and during the summer five hundred thousand lobsters. He employs seven hundred hands, besides a large number of huskers. He has had fifteen hundred acres of sweet corn under cultivation.

—Tortoise shell jewelry is an article that is very artistically made in Providence, R. I., and for which there is a demand all over the United States. This species of jewelry, especially the light colored, is quite expensive, a single vest chain for gentlemen's wear, made of the amber colored shell, perfectly plain, selling for twenty-five dollars. Dark colored shell chains, ornamented with inlaid gold, sell at from twelve to eighteen dollars each. The sets for ladies' wear are of great elegance and intricacy of pattern, and sell at twelve to twenty-five dollars each.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, October 19, 1868.

The general markets are dull, and devoid of any new or important characteristics. Business, generally, is dull, unsually so at this season of the year, and no material improvement is expected until after the Presidential election. Navigation being suspended tends to restrict the volume of business, which at best is light, and as has been the case for some time past, the demand for almost everything is confined mainly to supplying the immediate wants of the local trade.

APPLE BUTTER—Is dull and under the influence of increased receipts, prices are lower; we now quete at 75 to 80.

APPLES—In good supply, but with a steady demand, prices are fully maintained, ranging from $2,50 to $3,50 for fair to prime, and $4 for choice.

BUCKWHAT FLOUR—Is reported in demand at $6 per cwt.

BUTTER—Prime to choice Roll Butter is quoted at 35 to 38, and medium to good at 30 to 33.

CRANBERRIES—Sales of Prime Cultivated at $15 to $16 per bbl.

CHESTNUTS—Unchanged at $6,00 per bushel.

CHEESE—Is quiet and unchanged at 17 to 20c, according to quality.

EGGS—Scarce with an improved demand, fresh packed may be quoted at 25 cts.

SEEDS—Flax Seed is in steady demand, at $2,50. Tmothy Seed is dull and nominal at $3 to $3,25. Cloverseed dull and nominal.

SALT—Sales of Allegheny River brands, at $1,75, to the trade, and $1,90 to $2, in store.

PROVISIONS—Bacon is unchanged at 13½c for Shoulders; 16 to 18c for Ribbed and Clear Sides, and 20 to 20½c for Sugar Cured Hams. Prime kettle rendered Lard, 20 to 20½c. Mess Pork, $30,50 to $31.

LARD OIL—Is firm but unchanged at $1,25 for No. 2, and $1,50 for No. 1.

HAY—Baled Hay is still quoted $28 to $30, as to quality and condition.

POTATOES—Peach Blows and Neshannochs 85 to 90 cents per bushel. Jersey Sweets in light supply, and fresh receipts may be quoted at $5,25 to $5,50 per bbl.

GRAIN—There is but little inquiry for Wheat, the mills being pretty well supplied, but prices are nominally unchanged; sales No. 1 Spring at $1,75. Winter Wheat, $1,95 to $2 for Red, and 3 to 5 cents higher for White. There is no abatement in the demand for Barley, which is owing to a growing belief that prices will go still higher; we continue to quote No. 1 Spring at $2,20 to $2,25. Oats firmer but unchanged; sales at 66 to 67c, on track, and 69 to 70c, in store. Corn is dull but nominally unchanged; prime Yellow is offered at $1,14 to $1,15, free on board cars. Rye is unchanged at $1,45 to $1,50.

WHISKY—Is firm and in fair demand but unchanged; sales Rectified at $1,25 and Highwines, $1,35.

FLOUR—Is steady but unchanged. Some of the bakers are reported as buying considerable Spring Wheat; they buy the different grades and mix them—good and bad together. We continue to quote at $8,50 to $9,25, for Spring Wheat brands; Winter Wheat may be quoted $9,75 to $10,25. The mills continue to quote Extra Family at $10,30, in bbls, and $10, in sacks; Double Extra at $10,80, in bbls, and $10,50 in sacks. Rye Flour, $8,50.

RIVER NEWS.

The weather continues cloudy and cold, with indications about equally favorable for rain or snow. The prospects for a rise are by no means encouraging at present, but it is probable we shall have a wet spell before Indian summer sets in. The river has got down so low that it is scarcely worth while to notice the stage of water, there being only about eighteen inches in the channel.

Steamboatmen generally, and with good reason, too, feel discouraged. They have been idle all summer, and here is November nearly at hand, with no water. Possibly, there may be water for three or four weeks, and then we may look for a freeze up. It is hard on owners as well as crews; freights are so cheap that the margin is next to nothing, when running, and when laid up the insurance of ten per cent. does not stop. We have no doubt that there are boats whose earnings during the past year will not more than pay for their insurance, if that.

"LET US HAVE PEACE."—*Grant.*
"LET US HAVE WAR."—*Blair.*

"It is as essential to have a political victory this Fall as it was to have an Appomattox in 1865, and every man who loves his country should vote for Grant.

"PHILIP H. SHERIDAN,
Major General, U. S. A."

"SEYMOUR AND BLAIR WILL GIVE US ALL THE CONFEDERACY FOUGHT FOR."—*Ex-Rebel Gov. Vance's speech at the Democratic Ratification Meeting in Richmond.*

Headquarters Republican County Committee, City Hall, Market Street. Open every day. County Committee meets every Wednesday, at 2 P. M.

WE PRINT *on the inside pages of this morning's* GAZETTE—*Second Page: Poetry. Ephemeris, Manufactures. Third and Sixth pages: Commercial, Mercantile, Financial and River News. Seventh page: Agricultural Department, Amusement Directory.*

GOLD closed yesterday in New York at 137⅞@137½.

BLAIR determines to do as Secretary STANTON did—stick, and about as muah to the gratification of the cheerful Democracy.

ALTHOUGH PHIL SHERIDAN is hot foot after the copperheads of the wild west he manages to find time to administer terrible blows with his pen at the Copperheads of the nation at large.

THE *Post* congratulates the Democracy of Allegheny county on doing *all* that was expected of them at the late election. The *Post* is cheerful, although it does rain Republican majorities all around its doors.

SEYMOUR AND BLAIR are about to experience, personally, a conviction of what is meant by the "Lost Cause." They are themselves lost so completely that they are likely to be nowhere in the final Democratic scrub race for the Presidency.

THE pacific movement of the Emperor NAPOLEON in disbanding a large portion of the army of France, promises long continued peace in Europe. The unpleasantness in Spain will not disturb the relations of the other more important countries.

THE *Post* was non-committal yesterday morning on the question of Presidential candidates. This confirms the general belief, that it really prefers the election of GRANT, as recommended by it in '57, rather than of any guerrilla leader whom its party may now bring forward.

GREAT indignation is expressed in St. Louis over the assertion made by FRANK P. BLAIR, in his Saturday night's speech, that *if Grant entered the White House he would never leave alive.* Such were the words of the exasperated candidate, let his friends cover them with whatever mantle they may chose.

CAN ANY Democrat of Allegheny county look his neighbor honestly in the face, and name the Democratic candidate whom he intends to support for the Presidency? Not a man of them knows to-day who will be their candidates to-morrow. SEYMOUR and BLAIR *were*, but Heaven only knows who will be hereafter. Come, men, heed the advice of the *Post*, and fall in under Gen. GRANT, and make him the President of the people, not of a party.

THE recent elections in the North have enraged the Southern wing of the Democracy, and as a result we are called daily to chronicle horrible outrages on innocent Republicans of the South. Elect SEYMOUR and BLAIR next month, and the element of Southern society which throbs with our Republicans of the North, will be mercilessly butchered and swept out of existence. Elect GRANT and COLFAX, and Peace, Order and Law will be established in all parts of our country.

ONE DEMOCRATIC Congressman has already come to grief. He is one of the "gains" so much bragged of by the opposition. One DICKENSON, who claims an election from the IXth Ohio District, and was also a Probate Judge in one of its counties, has been arrested, by a warrant from the United States Court for Northern Ohio, on a charge of issuing fraudulent naturalization papers to secure his own election. His son, a Chairman of a Democaatic County Committee, is also under arrest for complicity in the same frauds. Letters from that district express great confidence that this Democratic Congressman elect will put in his term of office within the Ohio Penitentiary. Which of the other "Democratic gains," is to be the next candidate for the penalties of the law?

BE ASSESSED.

If the assessment of any friend of the Union, who wishes to vote for General GRANT, has been hitherto omitted, let him attend to it at once. The time expires at midnight of next Saturday, the 24th.

"VOTE EARLY AND OFTEN."

This was the solemn exhortation of a Democratic journal at Philadelphia, on the eve of the last election. The editor now says it was merely a joke. Thousands of Democrats failed to see the point of that joke, and acted upon the recommendation. If any Democrat is curious in this matter, we have a copy of the newspaper containing that editorial "joke," which he can examine at his leisure.

THE DEMOCRATIC "ELEPHANT."

If an elephant is to pass a river on ice not quite heavy enough to bear him, he had better lose a tusk than be drowned in the stream.—[*World.*

It is the general impression that the *World's* party "saw the elephant" on the 13th, while everybody is agreed that the name of the animal is BLAIR. If he had lost both his tusks before the Democracy made his acquaintance, it would be better for that party now.

THE RULING PASSION.

It is evident that the opposition leaders are reluctant to give up the ship. Their fire upon the old flag is temporarily silenced while a mutiny rages upon their own decks, but it is already evident that as soon as they shall have shot some of the mutineers, and thrown the rest of them over board, they will again attack us with redoubled desperation. Their arithmetical squad is again mustered, and hard at work upon "per centages," "increases," "gains," and other comforting calculations. But neither salt nor the Rule of Three can save them, and their arithmetical frenzy only proves how the ruling passion may be strong in death.

RAILROAD MATTERS.

The subscriptions to the stock of the Chartiers Valley Railroad taken by those owning property and residing along the route were at first irregularly and illegally put down—the papers not being drawn up according to law and some of the signatures being written with a lead pencil. The matter has been rectified, and the prospects are bright for an early commencement of the construction of the road. A difficulty as to right of way with the Noblestown Plankroad Company is in process of adjustment,

A sufficient sum of money has been paid into the treasury of the Monongahela Valley Railway Company to warrant its charter. The friends of the enterprise are sanguine of the early completion of the road. Capt. THOMAS W. BRIGGS has been elected President.

ONE MORE DEMONSTRATION.

The Grant and Colfax and Tanner Clubs in Allegheny county propose to parade on Thursday evening, the 22d, in a torch-light procession in this city. Clubs from other counties, from adjoining districts, and Ohio, are cordially invited to attend and participate in what is intended to be made the grandest demonstration of that character during the campaign. It is to be not only a mustering of the Clubs, by way of preparation for November, but it will also be intended to mark the popular sense of the glorious victory of the 13th. As such, we hope to see all our country friends here, and that they will bring the ladies and children with them, to enjoy the spectacle.

The route of the procession is announced in another column. *Of course*, everybody along the line will hang out his banners and light up his house. Let us do something even better in that way than the city has yet done.

LOOK OUT!

There is danger in the popular impression that the Democratic tactics of colonization will be impracticable at the November election. It is true that all the States elect on the same day, but it is not true that, for this reason, the opposition in each State will need every vote at home. They are already prepared to abandon Ohio and West Virginia, the first as hopelessly against them, and the second as of trifling importance, and intend to precipitate thousands of illegal votes therefrom upon Pennsylvania. To these they will add others, to be drawn from Maryland and Kentucky, where they can be spared. In the same way, New Jersey and Massachusetts will help to swell their vote in New York City. This is the enemy's last card, and they will play it with reckless audacity. Abandoning the small States, or where a contest is hopeless, and judiciously distributing twenty thousand or more of their surplus of rebels in Kentucky, they will make a final charge upon the ballot-boxes in Pennsylvania and New York. Let our friends be warned in time.

THE REBELS UNCOMPROMISING.

The Raleigh *Standard* reports that an agent of the Democratic National Committee, who has been personally urging upon the State Committees of that party in the the South to "let up" on the negro question, met with a flat refusal in North Carolina. GOV. VANCE, of that State, did not ratify the Democratic nominations with any such intentions, when he declared at Richmond that the "lost cause" was now to be regained. He still desires to "fill h—l so full of Yankees that their legs will stick out of the windows," and regards BLAIR as the "appointed instrument for that purpose." The Georgia and South Carolina Committees have agreed to *talk* negro suffrage until after the election, but their mental reservations are well understood. The "rebel yell," with which BLAIR was nominated, was redoubted all over the Gulf States, when they heard of the New York treachery, the other day. That wing of the Democracy would as little consent to give up FRANK BLAIR, and his promise of an armed intervention, in their behalf, against the upholders of the Union, as would the most ferocious wild beast to surrender a prey already bleeding in its jaws.

EVERY MAN TO HIS POST.

Friends of the Union, beware of a false confidence in the completeness of last week's victory! You have succeeded in breaking and repelling the enemy's onset, and have driven them back for the moment demoralized and tempted to despair of the contest. But we see them again rallying into line; they still obey the voices of leaders whom they cannot reject if they would; they will soon be, if they are not already, formed for another attack, and that one to be far more desperate and critical than the last. Despair will nerve their arms, and the fight they are again to give us will be to them one of life or death. They have all to gain and nothing to lose; you have everything to lose by suffering your first triumph to betray you into a final defeat.

Consider, Republican reader, that you have only the small majority of ten thousand in this State, in a total poll of nearly six hundred and fifty thousand votes. More than three hundred thousand citizens of Pennsylvania voted against you last week, and they will do it again if leaders can coax or drive them to the polls. Any evidences of wavering, or confusion, or of over-confident carelessness on your part, are a direct encouragement to the enemy, and will surely lead to your overthrow at the next trial. Standing to your posts, on the other hand, every man of you, your ballots ready, your lines closed and presenting a compact front, resolute, vigilant and confident for your country's cause, the moral effect of the first repulse will be strengthened by your evident ability to repeat it, and you will find it a far easier task to hurl back and scatter an enemy knowing itself to be already whipped, in an irreparable rout.

You have but two weeks for preparations. Let every day, and every evening, be improved. Remember that years must elapse before you can be again invited to similar duties and responsibilities. You have enjoyed a week's repose, after the glorious exertions which gave you the preliminary victory. Time flies; wake up the slumbering, beat the long roll, and fall in! The enemy presumes upon your fatal reliance on past results, and hopes to find your numbers diminished. Let there be no stragglers, none asleep. Grant no leaves of absence; picket every road, so that you may see all the absentees and recall them to their duty. No citizen should leave home who is not sure to be at hand two weeks from to-day. No expedient should be omitted now, to secure a victory in November, which has been found of service in winning the October election. Your Clubs should resume their regular meetings; let every lamp be trimmed bright and its bearer ready at roll-call. Give your banners once more to the air; let your music be heard in all quarters of our crowded towns and float over every country hill; gather together and call in speakers to address you; take account of your neighborboods, and let each district aim to exceed all others in its increased vote for the Hero of Appomatox, whose civic triumphs shall be green in history when even his military glories shall have faded in the comparison.

Men and brethren, friends of the Union! We entreat you to heed these suggestions! For your own sake, if not for that of your children or your country, give these two weeks to the Great Cause, as heartily and generously as you have already given to it months. Do not peril all you have won, by inviting a successful attack upon your lines flushed and disorganized by one triumph. Two weeks more of fidelity to your own principles, and all will be well—and well forever. Halt now, disarm, leave the field for the quiet of your homelier lives, and you will lose all. How bitterly you would then reproach yourselves for the criminal folly with which you laid down your arms too soon, and betrayed the Cause of the Republic, of Law and of Peace, to its ruin.

We write earnestly, for we feel that this cause is in danger from the carelessness of its friends. We know that the strain upon all nerves, upon all loyal hearts, has been a severe one, for months, and how the natural reaction tempts to a listless repose. But it is well to remember that no such anxious strain is now needed; *we all know* that what has been done, can be done again, and that, if we will, the last hours of this campaign may witness our triumphant march from the first victory to the final rout of the rebels, our ranks swelling with hundreds of thousands of citizens who will flock to our standards, until the grand array of friends of the Union shall be a second time reviewed and dismissed, under the walls of the Capitol, by ULYSSES S. GRANT.

THE DEMOCRATIC MUDDLE.

SEYMOUR and BLAIR are "willing" to withdraw; having been knocked out of time, they can't come to the scratch. But who shall replace them? "that's what's the matter," as the *Post* recently remarked in another connection.

Judge CHASE is said to have "placed himself in the hands of his friends"—of course. But are not his and Seymour's late "friends" the same? How about the platform? What of a white man's government? What of greenbacks for bonds, and one currency for all?

MCCLELLAN has also been visited in his entrenchments, and inspected with reference to his capacity for service. He is said to be willing enough, but not on a rebel platform.

As the National Democratic Committee are to meet this week, to put some sort of a period to the sufferings of their party, a sense of duty impels us to suggest to them two names which will inspire the Democracy with an invincible enthusiasm, cordially uniting them once more in close front against the Radical enemy. We nominate that gifted statesman, our fellow-citizen, Prof. BURTT, for the first place, and the "horny-handed" Gen.. SAM. CARY, of Cincinnati, for the second place on the Democratic ticket. Thay would not only run well, but, in a political way, an admiring people have no other use for them. Let us patiently await the decision of the Committee!

THE XXIST DISTRICT.

The *Post*, and other Democratic journals, are endeavoring to cover the tracks of fraud in the XXIst District by statements to the effect that Mr. COVODE ran behind his ticket. A few figures will explain the matter fully and show that while Mr. COVODE has held his own from year to year, gradually increasing his vote, the greatest increase has been made in the Democratic votes of Fayette and Westmoreland. How the latter disproportionate increase was made remains to be shown by the rigid examination which will be made before Mr. FOSTER will be permitted to take his seat. Let us look at the figures of the XXIst District:

1867—Williams		11,064
Sharswood		11,311
Total vote		22,315
Democratic majority		305
1868—Covode		13,766
Foster		13,807
Total vote		27,573
Democratic majority		41
Increase of '68 over '67		5,278
Covode's gain over Williams		2,702
Foster's gain over Sharswood		2,496
1866—Covode for Congress		13,623
Weir		12,699
Poll of '68 over '66		1,851
Poll of '68 over '67		5,278

The following is a comparison of the polls for the years 1866-7-8:

	Westm'land.	Fayette.	Indiana.
1866	11,457	7,904	6,551
1867	9,867	7,043	5,415
1868	11,924	8,529	7,134

Thus it will be seen that the larger gains have been made through fraud and colonization in the counties where Mr. FOSTER received his majorities. In Indiana county Mr. COVODE received more votes than Gen. HARRY WHITE, candidate for State Senator, but owing to the fact that many Democrats refused to vote for the Democratic candidate, the Senator had the largest majority.

A GUERRILLA FIGHT.

All the signs indicate that the demoralized Democracy are about to abandon any generally organized contest, and to break up into guerrilla squads, each State fighting "on its own hook" and supporting such candidates as the respective State Committees shall recommend. All the BLAIRS, CHASE, M'CLELLAN, ANDY JOHNSON, PENDLETON, HENDRICKS, BRICK POMEROY, SAM CARY, Prof. BURTT, JEFF DAVIS and perhaps HORATIO SEYMOUR, are all to have an equal show, with a corresponding number of names for the Vice Presidency, and the Democratic State Committees, each suiting themselves out of the "grab-bag," will run the rest of this canvass on purely local considerations, with only a general agreement as to harmony in their electoral vote. This scheme lacks only one element of plausibility—it has not the remotest chance of success in getting a solitary electoral vote. We shall thrash the guerrillas, and not half try.

THE OHIO REPUBLICANS.

The Union men of Ohio are admonished, in an address from their State Executive Committee, that there still remains work to be done. The exhortation should be heard and heeded by friends of the Union everywhere, warning them against the fatal consequences which may attend any relaxation of those noble efforts which secured one victory, and which, *if faithfully continued*, will result in a last and crowning triumph. The Committee say:

The election of our gallant standard bearers, Grant and Colfax, is now assured. The struggle of Tuesday was the expiring throe of our adversaries, and desperately was it maintained. But we must not repose upon laurels won until the final victory is achieved—not success alone is desired, but a triumph by majorities, the moral effect of which shall bring peace to the nation and repose to the public mind.

Let neither vigilance nor effort be intermitted; let the column move on until even the Empire State shall be swept into the great tide of Union, liberty and progress, and the fruits of the great national conflict of arms shall be permanently secured.

OUR NEIGHBOR of the *Post* tries very hard to appear indignant at recent Democratic suggestions that the contest should be given up. However it may be with other journals of the party, the impression gains ground in this quarter that the *Post* people are really desirous that GRANT should have an unanimous vote. The public attach little consequence to its simulated zeal for the doubly repudiated New York ticket, looking with much greater confidence and satisfaction to the more candid and honorable sentiments with which it supported General GRANT last year. The *Post* of June 1867 faithfully reflected the temper of the popular masses then and now, on this question, while the *Post* of October '68 succeeds only in being unjust to itself and in inducing a general belief in its present insincerity. Thousands of Democrats in Western Pennsylvania, "appealing from Philip drunk to Philip sober," will faithfully pursue the line of duty, which our neighbor, with such clear and forcible arguments, marked out last year.

THE leaders of the Democracy are about making desperate exertions to reorganize their scattered forces and make one more grand effort to secure the State for SEYMOUR and BLAIR. They can't do it. Pennsylvania's word has gone forth for twenty thousand in November and she will give it, "aye give it with a will."

THE Portland *Press* tells of a boy whose distended pocket caught the attention of his maternal relative, who suggested an examination of the contents, which were found to be as follows: A top, a button, a round piece of tin, a ribbon, a piece of leather, a piece of a garter, two long rags, a string, several cotton wool wads, a jack knife, a vote on the constitutional amendment, a Sunday school verse, a glove, five marbles, a large gimlet, ten horse chestnuts—two of them partly manufactured—a sewing machine prospectus, several pieces of paper, a tenpenny nail, one headless nail, a shingle nail, slate pecil, piece of wood, small wheel, tin cylinder, four nickel cents, walnut basket and a table bell body.

THE latest railroad scheme is thus discribed: "The scheme is the application of the postage system to passengers. It is the contrivance of Raphael Brandon, who proposes that a human being, like a letter, shall be dispatched to any point for a threepenny, sixpenny or shilling stamp, as a third, second or first-class train shall be preferred. The invention produces stastistics to show that this marvelous cheapness, in view of the immense increase of travel, may be realized. What is added to the expense of transportation by the weight of a passenger compared with that of a letter is saved in the cost of delivery, the passenger delivering himself.

South America.

Recent letters from Peru state that earthquake shocks are still felt in Arequipa and Arica, but that the cities being mere piles of ruins, no further actual damage is inflicted. The return of the yellow fever at Lima and Callao is feared, and strict sanitary rules have been put in operation. The officers banished from Peru by Canseco have been pardoned by Balta, who has issued a proclamation to that effect. The rank and pay of the officers are restored. The deposed Prcsident Prado who was exiled to Chill is included in the amnesty. At Buenos Ayres, the Congress, on August 16th, officially declared that Diego Sarmiento was elected President, and Alsina, Vice President. At Valparaiso, great fears are entertained that the earthquakes of August will be repeated, as phenomena similar to those which occurred in Ecuador prior to the shocks have been observed in Chili. In Bolivia, it is asserted that the President, Mulgarego, ordered Cabrera, a member of the Legislature, to be shot, for making a speech disapproving of his policy, and the persons applauding Cabrera to be flogged. The urgent dissuasions of the Speaker of the House of Deputies were necessary to prevent Mulgarego from carrying out his violent measures.

COUNSEL FOR THE CARELESS.

The body is a machine, and carelessness in its management is as sure to lead to evil results as carelessness in the management of a steam engine. Yet the last thing that most people think of is the protection of this delicate piece of the Creator's handiwork from the subtle causes of disease by which it is surrounded. It is no easy thing to repair the system when in ruins; but there is no difficulty in fortifying it against many of the dangers to which it is exposed. Guard against nervous debility. At the first symptom of this fore-runner of more serious ailments, sustain the flagging energies of nature with HOSTETTER'S STOMACH BITTERS. Take it regularly and persistently, until bodily vigor is thoroughly restored. It creates an appetite, promotes—or, it might as properly be said compels—the complete digestion of the food, regulates the secretive action of the liver, tones and invigorates the bowels, improves the condition of the blood, and gives firmness to the nerves. Upon a system thus strengthened and regulated in all its important functions, the fogs and exhalations of autumn, pregnant with the elements of intermittent fever, can make little or no impression. Whoever supposes that fever and ague is an unavoidable evil in certain districts, at this season of the year, is egregiously mistaken. As effectually as a draught of cold air is shut out by the closing of a door, this complaint, and all disorders of a miasmatic type, may be prevented by the use of the BITTERS. When sickness can be avoided by a means so safe and simple, is it not the merest fatuity to neglect the proffered antidote? Regarded either as a preventive or a cure for dyspepsia, biliousness, intermittent fever, nervous disorders, general debility, or constipation of the bowels, this pure vegetable preparation stands alone.

DISEASED LUNGS.

There is no doubt whatever that diseases of the ungs, or ulcers of whatever sort, on any of the internal organs may be and are frequently cured, and a complete condition of health established. If the elaborative functions, of which the stomach is the primary and most important one, are restored to a condition to do the repairing of the human system, ulcers or sores, whether upon the lungs, the liver, the kidneys or the bowels, or upon the legs, as is frequently the case, can be made to heal, and a complete standard of health re-established.

We have frequently seen these results from the use of Dr. KEYSER'S LUNG CURE, a pleasant and agreeable medicine, which will ripen up and carry out the animal economy all effete and used up material. Dr. KEYSER'S LUNG CURE is enriched by some of the most valuable plants and herbs known to be useful and curative in all deteriorated states of the human blood, and whilst it adds to its plasma, it at the same time stimulates, gently but effectively, the skin, the kidneys, the liver and the glandular system to sufficient action to enable the body to take on healthful action and eradicate the disease. The sick and afflicted should bear in mind the virtues of this great medicine, and if those who are sufficiently alive to the importance of health, will resort to it in the beginning of a cough or cold, there would be no falling into declines and rapid consumption, so hopelessly incurable, and so most surely fatal. Let any one afflicted with any pulmonary disease try but one bottle, and they will be convinced of the value of Dr. Keyser's Lung Cure. Sold by the gross, dozen or single bottle, at Dr. KEYSER'S Great Medicine Store, **140** Wood St.

AN AUTOGRAPH LETTER FROM

GEORGE D. PRENTICE, Esq.,

Editor of the "Louisville Journal."

LOUISVILLE, Nov. 5th, 1866.

DR. LIGHTHILL—DEAR SIR: I am very sorry to learn that you contemplate leaving Louisville at the end of the present week. I earnestly wish that your engagement elsewhere might permit you to remain here for a longer time.

Your sojourn among us, Dr. Lighthill, will be long remembered by our people. It has been a blessing to many. You have treated me and a female member of my family with great success. You seem to me to understand, as by intuition, the character of a malady and its best remedy. You have a multitude of patients in this city, and I have not seen or heard of one to whom you held out the promise of relief without rendering it. Your entire practice among us has been a brilliant success, and I cheerfully recommend you to my friends and the public at large as a physician deserving the utmost confidence.

Hoping that you may live long to be a blessing to additional thousands of the afflicted, I am, very truly, youre, GEORGE D. PRENTICE.

TESTIMONIAL FROM THE

REV, JOHN NOTT, D. D.,

Professor in Union College, Schenectady.

SCHENECTADY, January 17th, 1866.

DR. LIGHTHILL—SIR: Having been cured by you of a discharge in an ear, which has been very offensive of late, and, far back as I can remember, always more or less so, and having been entirely restored to hearing since under your care, I feel that I cannot withhold this acknowledgment from any use it may be to others, especially as I have applied in vain to my family physician and other physicians of reputation. Yours truly,

JOHN NOTT.

GOLD BONDS

OF THE

Central Pacific Railroad Co.,

A LIMITED QUANTITY of the Thirty Year Six Per Cent. First Mortgage Bonds of the Central Pacific Railroad Company are offered to investors, for the present,

At 103 and Accrued Interest, in Currency.

These Bonds are secured by a Trust Deed upon the most important link of the great Inter-Oceanic Railroad, two-thirds of which is already built, at a cost of nearly

ONE HUNDRED MILLIONS,

And which enjoys already a self-sustaining way traffic. The whole line of continuous rail between

NEW YORK AND SAN FRANCISCO,

Will be completed by July next, when an immense through business will undoubtedly follow. More than 1,200 MILES of the distance between the Missouri River and the Pacific Ocean are already traversed by the locomotive; and it is probable that 300 miles additional will be completed during the current year. The future of this Line, therefore, is unusually promising. The

Central Pacific Railroad Co.

Receive from the United States Government about ten millions of acres of the

PUBLIC LANDS,

Situated along the line of their Road; also a Subsidy Loan of U. S. SIX PER CENT. BONDS, averaging $85,000 per mile, as fast as the sections of twenty miles are completed. They have received in addition, important GRANTS from the State and cities of California, worth more than $3,000,000 IN GOLD. The proceeds of these Lands, Bonds, Capital Stock, Subscriptions, Subventions, and Net Earnings are invested in the enterprise, to which is added the amount realized from First Mortgage Bonds. THESE LATTER HAVE THE FIRST LIEN UPON THE WHOLE PROPERTY, and are issued to the same amount only as the Government advances, or to the extent of about one-third the cost value of the Road, equipment, etc.

The Cash Resources are abundant for the completion of the work, and the NET EARNINGS, FROM THE WAY TRAFFIC UPON 350 MILES NOW OPEN FOR BUSINESS, ARE MORE THAN DOUBLE THE CURRENT INTEREST LIABILITIES.

Besides a mileage upon all through business, this Road, having the best lands for settlement, the most productive mines, the nearest markets, and being exempt from competition, will always command LARGE REVENUES, WHICH ARE WHOLLY IN COIN.

Two-thirds of the entire Loan is already marketed, and judging by past experience, the Loan will soon be closed. Investors who desire an unusually safe, reliable and profitable security would do well to purchase before the Bonds are all taken.

The Company reserve the right to advance the price at any time; but all orders actually in transitu at the time of any such advance will be filled at present price. At this time they pay more than 8 per cent. upon the investment, and have, from National and State laws, guarantees superior to any other corporate securities now offered.

The First Mortgage Bonds are of $1,000 each, with semi-annual gold coupons attached, payable in July and January. Both INTEREST AND PRINCIPAL ARE MADE EXPRESSLY PAYABLE IN UNITED STATES GOLD COIN. The back interest from July 1st is charged only at the currency rates.

We receive all classes of Government Bonds at their full market rates, in exchange for the Central Pacific Railroad Bonds, thus enabling the holders to realize from 5 TO 10 PER CENT. PROFIT, and keep the principal of their investment equally secure, and receive the same rate of interest for a longer period.

Orders and inquiries will receive prompt attention. Information, Descriptive Pamphlets, etc., giving a full account of the Organization, Progress, Business and Prospects of the Enterprise furnished on application. Bonds sent by return Express at our cost.

Subscriptions received by Banks and Bankers, Agents for the Loan, and by

FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, October 19, 1868.

There was an unusual large demand for government bonds to-day; on account of the sudden advance in Europe very few bonds were offered for sale, and those on the market were disposed of at high figures, that it is quite likely a temporary reaction may take place to realize.

Money is very much in demand, and a sharp decline in stocks is the indication of a tight market for the next few days. Gold opened at 136⅝, but soon advanced to 137¾, with large purchases; the market is in such an oversold condition that the slightest cause may put up the premium 3 to 4 per cent., although the tendency is toward a lower rate.

Stocks were very bouyant in the morning, but gradually declined, and the market is rather bearish. Express stocks are strong, and in demand.

ALLEGHENY CATTLE MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, October 19, 1868.

CATTLE.

The supply of Cattle on sale was again large to-day, reaching about thirteen hundred, in the aggregate, and with bad weather and but very few buyers aside from the butchers, the market was an exceedingly dull one, and there was an almost universal grumbling among drovers. Prime retailing stock remain about the same as last week, ranging from 7 to 7½c, but common and inferior stock was exceedingly hard to sell at any price; medium butchers Cattle may be quoted at 5½ to 6, and good do at 6¼ to 6½. The large supply of common Cattle is beginning to influence the price of good Cattle, and unless we are greatly mistaken, stock of all kinds will rule lower within the next two months. Cattle seem to be plenty everywhere, and as soon as the winter sets in, farmers and stock growers will commence to send their stock to market again, and with all the markets over-supplied, lower prices will inevitably be the result.

We suppose, that taking it year in and year out, there is no market in this country that has, in comparison to the number on sale, more good Cattle than Allegheny market. It is true, there are quite a number of rough stags, steers and cows on sale every week, but these, as a general thing, are bought by scalawag butchers and dealers, and are brought here for them. The majority of our butchers, however, buy good Cattle, and Pittsburgh and Allegheny are supplied with as good meat as any other market in the country.

L. Rothchilds & Co. sold 38 head Chicago steers at 5 to 7,65.

M. Verner 64 head Washington county steers at 3½ to 7c.

Keefer & Zeigler 12 head Washington county steers at 5 to 5,50; 17 head Chicago steers at 6 to 7.

Kraus & Haas 73 head Illinois and Penna. stock at 6 to 7.

Peter Hartman 39 head Green county stock at 3,50 to 6,75—steers and heifers.

E. Katz sold 8 head good cattle at 5 to 6; 9 head left over.

Myers & Needy 42 head Iowa cattle at 4,50 to 5,50; 38 head Washington county steers at 5 to 7,40; 36 head, on commission, for Williams at 5 to 6; 16 head for Root at 5 to 7.

Stakely & Bro. 15 head Butler county steers and heifers at 3 to 5.

Wicks & Co. 48 head Butler county steers, cows and heifers at 3 to 5.

Nicholas Carr 27 head for E. H. Davis at 5 to 6; 12 head, for another party, at same figures.

Holmes, Lafferty & Co. 95 head mixed stock at 3,50 to 7,25.

Traurman & Lobman 83 Washington county, Penna. and Indiana stock at 5,50 to 6,50.

S. Marks & Bro. 19 head Ohio steers at 5 to 6; 14 head Washington county steers at 5,50; 6 extra Ohio steers sold to C. Weldy, on private terms.

Garwin & Bro. 17 head Butler county stock.

L. & J. Shamberg 50 head Penna. and Illinois cattle at 5,50 to 7,25; 30 head, on commission, at 4 to 5.

Hedges & Taylor 91 head of commission stock at 5 to 6¾.

Greenwald & Kahn 61 head Ohio cattle 5,50 to 7,50; 40 head, on commission.

Hazlewood & Blackstock 21 head of Belmont county, Ohio, steers and heifers, for Shepard, at 5,50 to 6,50; 27 head from Jefferson county, Ohio, for Murphy, at 4,75 to 6,50; 40 head from Salem, Ohio, for Campbell, at 4,50 to 5,80; 34 head, on own account, at 5,25.

Emerick & Co. 6 head commission stock at 4 to 4,50.

Jas. McAllister 21 head light cows and heifers, for Porter at 4 to 6; 10 for E. H. Davis at 4 to 5.

Smith & Blue 21 head Indiana steers and cows for Tucker at 4 to 6.

Applegate 21 head cows and heifers, at an average of 5c.

SHEEP AND LAMBS.

There was again an over supply of Sheep this week, and the market as a consequence was an exceedingly hard one; the butchers had it pretty much all their own way, being able as a general thing to dictate the price. Prime fat Sheep were in limited supply, and sold without difficulty at fair prices, but common and inferior, which constituted the great bulk of the supply, were exceedingly dull, and as we have already intemated, buyers of this kind had it pretty much there own way.

Lord wholesaled 172 head stock Sheep, averaging about 70 lbs, at $1,10 per head.

Allen to Maggi 75 head common Butler Co. Sheep, at $1,25 per head.

Smith to Maggi 40 head good Lambs at $1,25 per head.

Banford 70 head Washington Co. sheep at an average of $3 per head.

C. Beeler 200 head Sheep and Lambs, at $1 to $3 per head.

Clark 200 head Lawrence Co. Sheep and Lambs, at $1,10 to $1,40 per head.

Emmell, Fowler & Walters 500 Sheep and Lambs at $1 to $3,50 per head.

Adam Eckert 86 Lambs, at $1 to $3; 47 Sheep at $2,50 to $5 per head.

Garwin & Co. 270 Sheep and Lambs reported at an averge of $1,60 per head.

Peter Sheitemantle 270 Sheep and Lambs at $1 to $2,50 per head.

M. Flinner 304 scalawg Sheep and Lambs, at 50 to $1 per head.

John Young sold 8 head of extra averaging over 100 lbs, at $4 per head; 60 head he expected would average $1,60 per head.

Seymour 80 good Sheep unsold; held at $4,50 per head—averaged about 100 lbs.

J. R. Pringle 316 head Mercer Co. Sheep and Lambs; average about $1,25 per head.

M. Humes 120 head, at an average of $1,25 per head.

McNeese sold 20 head Sheep at $1,25; and 23 at $1,40.

Bannon sold for Robinson 70 good Sheep at $2,75 to $3,25 per head.

James Shaw retailed 90 head at $1,25 to $2,50 per head.

Douthett & Critchlow 217 head Butler Co. Sheep and Lambs at an average of $2,50.

Stakely & Bro. 125 head Sheep, at $1 to $2,50 per head.

HOGS.

As the price for Hogs is reduced the demand increases, and we presume that there are now fully double, and perhaps treble, the number retailed that there were two or three weeks since. We now quote in a retail way at 9 to 10 cts for fair to prime heavy averages—some few choice, 10¼.

Root sold 32 head averaging 233 pounds at 9¼.

Myers & Needy retailed 41 head at 9¼ to 9½.

C. Byers retailed 85 head at 9¾ to 10¼.

Emerick & Co. 150 retailed at 9 to 10¼.

S. Marks & Bro. wholesaled 59 to Emerick & Co. at 9¼.

PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, October 19, 1868.

CRUDE.

The Crude market is in an unsettled and unsatisfactory condition, with little or nothing doing, comparatively speaking. Prices are nominally unchanged, and while the demand is light and restricted mainly to supplying immediate wants, the receipts continue rather small and the offerings are light. We can report 1,000 bbls for October at 11¾c, and 1,000—sold last Saturday evening—buyer, for the balance of 1868, at 11¾c. Spot oil may be quoted at 11¾c, and the same figure will apply to the last half of the month.

REFINED.

It would appear from to-days operations, that some of our operators not liking the appearance of the market for the balance of 1868, have taken a pretty large stride into 1869; not a barrel reported sold for 1868, while the sales for 1869, foot up eighteen thousand barrels, as follows: two "lines" of 500 each from January to December at 30¾; and another of 500 each, same delivery, at 31. November to March was offered at 29½, without finding buyers, and it was thought by some that it could have been bought at 29. October is quiet and unchanged—offers to buy at 29¼, and offers to sell at 29½. In regard to the "lines" sold for 1869, above noted, we understand, that both buyers and sellers are Pittsburghers. The free oil trade is quiet, and unchanged; quotations may be fairly given at 26 to 27 cents for car load lots.

FARM, GARDEN AND HOUSEHOLD.

MONTHLY HINTS.

This is a month of fruit gathering as well as that of root. The pushing forward as fast as possible the corn-husking, the proper storing of the fodder. In many places it will be much needed this winter.

Make all needed repairs of farm buildings. This is a favorable time to paint any buildings that need it.

In selecting your seed corn select the finest ears, and trace together and hang up to dry; it is better done now than in the spring in the crib, and is surer to grow. A stout wire stretched in the garret of the house or other loft, is one of the best things to hang seed corn on, as it can be easily arranged so as to keep off rats and mice.

Commence feeding the hogs; give cooked food, one bushel of cooked food makes more pork than twice that amount fed raw. Hogs will fatten faster this month than in any other month.

Do not attempt to fatten more cattle than you can fully supply with food, or they will not afterwards flourish well even if fully supplied. Young cattle cannot be brought up in flesh at an outlay which will pay, if neglected early.

Late plowing is beneficial to clay soil intended for tillage next season. Leave without harrowing, thus giving a greater surface for the frost to act on.

Harvest your potatoes if not already done; market and store away.

Put your roads in good repair before the fall rains.

Manure unthrifty trees. Top-dress strawberry beds late in the month. Bank up trees to prevent the attack of mice. Lay down and protect tender grapes. Grape layers may be removed from the vine.

Plant fruit trees; all the seed varieties can be planted in the fall; better let the stone fruit be till spring. Get your trees from reliable nurserymen, some of whom are advertising in the paper. Feed the pumpkins to the milch cows and fattening stock.

Harvest the beets and carrots, and store in cellar or pits. Cut off the tops and feed to cattle. Turnips may stand until next month. It is a good plan to leave the root crop lay exposed a day or two before stowing so as to lose the excess of moisture in them.

Make compost industriously; use those made in August on your clayey lands, ridging and back-furrowing them, running the sub-soil plow in the bottom of the open furrows. By this system the manures will occupy the centre of the ridges, and thus their gasses during decomposition will be absorbed, instead of passing off in the atmosphere. The sub-soiling between ridges will prevent the ridges from compacting by rains, and the sub-soil will be rendered fit for sustaining plants another year, from receiving the atmosphere and the carbonic acid and ammonia carried in by the rains. The frequent freezings and thawings during winter, will render ridges pervalent by spring, and suitable for early culture. Do not plow sandy lands in the fall.

Rake up leaves from the woods as they fall, and put them in the compost heaps. Cart headlands to the manure shed. Have a good supply of material suitable for bedding, near the stables.

Skin old woods of the surface-soil, and replace half its value as a manure with lime and ashes in the woods, and both farm and wood-land will gain in the exchange. Get all the night soil you can, and mix it with head-land, &c., for the compost heaps. Wet the compost heaps with salt lye from the soap boilers, if you can get it. Use half a bushel of refuse salt to every cord of compost, to prevent re-germinalion of weeds, grubs, &c.

Provide warm and light quarters for poultry for winter. Make arrangements for saving the droppings.

Rye can be sown as late as the middle of this month, and do well.

It is too late to sow wheat as far north as New York. Thin out turnips by pulling the largest ones for market, leaving the smaller to increase in size. Continue to weed spinach, &c. Earth up celery on dry days, after the dew has dried off. Prepare frames for parsley, letuce, cabbage, cauliflower, and such other plants as were sown last month. Put away vegetables by the latter part of the month for protection, and sale during winter.

Expose pumpkins and winter squases to the sun and wind, placing them on a dry board before storing them. Pack beets in sand in cellar, or put them in pits. Horse-radish may now be dug for use as wanted, leaving the old stools for future production.

Weeding at this time should not be considered as useless, and the removal of parasites cannot receive too much attention in late fall. Mulching soils intended for early gardening will add materially to their profitable culture and earlier products.

GATHERING GRAPES.

Although grapes require warm sun to promote their growth and thoroughly ripen the fruit, they will withstand pretty severe cold when the fruit is nearly mature. The early frosts are not apt to do them much damage except to cause the bunches to drop too readily. The vinous juices developed in the fruit serve to preserve them a long time. It is not necessary, therefore, to be in a hurry to gather the crop when a few cold nights happen along early in the season. It is always well to let them hang until the Indian Summer, which succeeds the first few frosty nights. Indeed, many persons think that the grapes are a little sweeter after one or two frosts than before—as is the case with the barberry. And this may be so, but the flavor, we fancy, loses some of its briskness by the change, whatever it is. But the ability of the grape to withstand pretty sharp weather is well known. Indeed, most matured fruits, while they remain upon the tree, will undergo a great deal of cold without injury. It has been often noticed that apples and pears which have even been frozen upon the trees recovered their previous condition, and, after being gathered, exhibited no effects whatever from the mishap. It is well, therefore to be in no hurry to gather late fruits, such as winter apples and pears. So long as they hold on to the twig firmly, and do not detach themselves upon being gently raised up, they may be suffered to remain with advantage. But when the foliage drops, and growth ceases, and freezing nights approach, they should be gathered.—*Salem Observer.*

WHAT THE FARMER MUST KNOW.

The *Rural World* says:

The farmer, like the business man, must know what he is doing; he must have some pretty decided idea of what he is to accomplish—in fact, must calculate it beforchand. He must know his soil—that of each lot—not only the top but the subsoil. He must know what grains and grasses are best adapted to each. He must know when is the best time to work them, whether in the Fall or Spring, or whether they need Summer following. He must know the condition in which the ground must be when ploughed, so that it be not too wet or too dry. He must know that some grains require earlier mowing than others; and what those grains are. He must know how to put them in. He must know that it pays him to have machinery to aid him instead of muscle. He must know about stock, and manures, and the cultivatiou of trees and small fruits, and many other things; in a word, he must know what good, experienced farmers know. Then he will not guess—will run no risks.

FALL FEED AND WATER.

For the greatest benefit to grazing stock, the pasturage should always be abundant. When a bullock or cow has to work by continuously ranging over a brood surface to glean its food, they cannot be expected to get fat or yield much milk. A "full bite" to the beast is the only profitable way of feeding. Cattle love rest. Any creature should be able to fill itself in two or three hours' time, and then lie down and ruminate.

Water, too, should always be plenty. When they can get water at will, cattle usually drink three or four times a day when at pasture. Many people suppose that if they are let out of a dry pasture twice a day and conducted to water, this is sufficient. Not so. Cattle have but little forethought, and cannot, as men do, anticipate a want which may occur an hour or two hence, and provide for it in advance.

We have seen a herd driven out in the early part of the day to water, and many of them would not touch it, and in two hours afterward they would be lowing about the fences, gates or bars, in distress for water, and not obtaining it, they suffered throughout the day, eating little or nothing until the next watering hour arrived, and then drinking so inordinately as to injure and disarrange all their digestion.

Men will say that cattle will become habituated to such watering by practice. They may, to some extent; but any one who will try the two methods, of giving them water at will, or only at certain hours once or twice a day, will soon perceive the difference in their condition of flesh, or yield of milk.—*Allen's American Cattle.*

BOTTLED CIDER.

One of our exchanges advises bottling cider, and gives the following directions:

For bottling let the pumace lie in the trough over night. The first run of the cider from the press is the best. Let the cider work a day or two, the casks being full, so that the pumace may pass off at the bung-hole. Then take an empty cask, clean and sweet, put into it ten or twelve gallons of the cider, thrust into the cask through the bung-hole an ignited rag-sulphur match, suspended by a wire from the bung, to which it is to be attached; and after this another, and so on, till three or four matches have been consumed. Then shake the cask violently, untill the fumes of the sulphur are completely incorporated with the cider. Pour the cider thus prepared into the cask in which you propose to keep it for the winter. Repeat the same process until the cask is full. Bung the cask tightly and let it remain in the ce'lar till March, and then draw the cider off and bottle it. Place the bottle upon the bottom of the cellar, and cover with sand. Some place the bottles bottom up, in a trench or between two bits of joists, as in this way the corks will remain secure without twine or wire.

If you don't care to bottle it, you can make excellent cider in this way: Take pure cider, put it into clean casks; then after the cider has worked so as to be pleasant, add to each barrel a pint of mustard seed, and bung tight. The cider will remain till spring of pleasant taste and sparkling appearance, when poured into a tumbler.

SAVE THE DEAD ANIMALS.

A dead horse, for fertilizing purposes, is equivalent to three loads of barnyard manure. Don't drag him off to the woods for the dogs to eat, nor throw him into the river for the fishes, or to enrich the water for the use of the down country cities; but first haul a load of sod, muck, or well-pulverized clay or loom, and spread on a space about six feet square, cut the carcass, bones and all, into pieces, of four or five pounds each, and spread it over this soil, leaving a little space between the pieces, and sprinkle on about half a bushel of slaked lime. Then another load or two of soil, the rest of the carcass, more lime and and two loads of sods or or soil on top, making a round top mound. After three months of warm weather, or six months of cold; mix the whole mass by spading it over, and cover with another load of fine soil, and in two or three months more, it will be ready for use and will make its mark wherever spread upon the land. The bones may be gathered out and mixed with wood ashes in a box, and kept moist for a year or so—when they will become soft—nearly all dissolved—and the mass will be worth about as much per pound as some of the commercial phosphates.—*Journal of Agriculture.*

EXPERIMENT IN SHEEP FEEDING.

Mr. S. Winne, near Albany, New York, has been feeding a large number of sheep during the past season—901 head, 180 of which were Merinoes. The net amount received, that is deducting freight and expenses in selling, was $12,046.15, an average of $13.57 per head. Mr. Winne made a careful experiment with the Merinoes and Leicesters as to feeding qualities in proportion to weight and quantity of food consumed. Two lots were selected, 60 Leicesters and 61 Merinoes. The sheep were carefully weighed February 10th, and an exact account of food consumed was kept for forty-six days, when they were again weighed and sent to market. The treatment of both were the same during and before the experiment. The Leicesters weighed 8,870 pounds, and gained 1,008 pounds, a gain of 11½ per cent., eating $174.43 worth of food. The Merinoes weighed 6,909 pounds, and gained 480 pounds, a little less than 7 per cent., eating $144.78 worth of food. The Leicesters sold for 10¾, the Merinoes for 10½ cents.

SHELTER YOUR MANURE.

"In the preparation of farm-yard dung," says Nesbitt, "there are two or three points worthy to be observed. The first is, that many of these substances are soluble. Now the common way of preparing farm-yard dung everybody is acquainted with; a large mass of straw and excrement is allowed to rot in the midst of a quantity of water, where, instead of a genial heat produced, it is washed by the water, which, saturated with soluble matter, is allowed to run away as if the cleaner the straw the better the manure. Now, it so happens that every one of these substances carried away is the most valuable, in fact, only the insoluble and most worthless are left behind. A quantity of dung thus exposed will lose its potash, its soda, the greater part of its ammonia, and its soluble salts of lime, all of which, with very little care, could have been preserved, to the great advantage and profit of the farm."

EXPERIENCE IN FEEDING CATTLE.

In the correspondence of the *Ohio Farmer* occurs the following: I have had twenty-five cows to milk, and found timothy and wild grass the best. To feed in winter, use shorts, ground oats, shorts and corn meal; shorts make more milk than clear meal; oats ground do better than either; but corn meal with shorts makes richer milk, but no more of it. I have fed potatoes largely; they do tolerably well, but milk a day or two old gets strong. Rutabaga turnips and carrots would not do for me to make butter from the milk; but of all the roots I ever tried, sugar beet is the best. I heard pumpkins were good to make milk, and tried them. I had twelve milkers; I divided them; fed six with pumpkins three weeks, and all run on grass alike. Those that had pumpkins gave not a gill more milk than the others, but I believe it was a little richer.

CITY AND SUBURBAN.

Daily Prayer Meeting—From 12 M. to 12:30 o'clock at the Rooms of the Christian Association, No. 23 Fifth street.

Oil City Mail.—From this date a through mail for Oil City will leave daily, (Sunday excepted.) It will close at 5:20 o'clock P. M. and arrive at 7 o'clock A. M.

The Second Ward Pioneer Grant Club will meet to-night at Wilkin's Hall. All persons having equipments belonging to the Club are requested to return them at the hall to-night.

Police Appointments.—H. B. McCurry, a Lieutenant of the police, has been appointed a day officer vice John Irwin, promoted to chief, and John Timmony takes the place of McCurry.

Resignation and Appointment.—Mr. William Thompson, Assessor elect of the First ward, Allegheny, resigned the position, and the County Commissioners yesterday appointed Mr. J. Beares to supply the vacancy. He has established an office at 'Squire Hays', Lacock street.

Suspended.—We noticed yesterday, while passing Colonel Negley's farm, on the Washington pike, a large rooster suspended by the neck from a branch of a locust tree on the road side. Whether he committed suicide or was hanged by the "Rads," we were unable to learn.

Car Burned.—Yesterday morning, about half-past two o'clock, a car loaded with rags, attached to the through freight train on the Pennsylvania Railroad, took fire at Brinton's Station and was totally destroyed. The passenger train east was detained about two hours in consequence of the conflagration.

The Allegheny Valley Railroad Company yesterday, purchased the right to use "Jamison's Patent Car Replacer." This is the meritorious invention of a practical young mechanic, and is designed to be used in rapidly placing cars on the track after running off. It will doubtless be adopted by all railways.

Allegheny Division.—Elsewhere we publish the officers and orders of the Allegheny Division of the forthcoming torchlight demonstration. Our friend, Capt. Hugh S. Fleming, has been chosen Chief Marshal, to whom all inquiries of those on the other side of the Allegheny, desirous to participate, should be addressed.

Attention, Second Ward Grant Club.—A regular meeting of the Club will be held this (Tuesday) evening, at 7:30 o'clock, at Wilkins Hall, Fourth avenue.

All persons having Caps, Capes or Lamps belonging to this Club, are requested to return them to the hall this evening. By order, THOS. H. PHELPS, Captain.

A Change.—Since the stage line from this city to Washington passed into the hands of Samuel Hare & Son, improvement is apparent in many respects. The stock is of a superior quality, the drivers careful and attentive, and everything is kept in the most perfect order, so that passengers can now travel over the road with safety and comfort.

Suicide.—James Moore, a stone mason, residing at Squaw Run, Indiana township, about a mile above Sharpsburg, committed suicide on Sunday afternoon, by hanging himself in his barn. As he has been drinking quite hard for several days, it was supposed he was laboring under an attack of *mania-a-potu*. Deceased leaves a wife and several children.

Political Debate.—Thomas Howard, Esq., an able champion of Republican principles, will meet in open debate James H. Hopkins, Esq., a very intelligent Democrat, at Library, Snowden township, on Thursday afternoon at one o'clock. Let there be a general turnout to hear the issues of the day ably and fearlessly discussed from both stand-points.

New Dry Goods.—At the extensive Dry Goods House of Bates & Bell, No. 21 Fifth Avenue. Our lady readers will find a complete stock of new dry goods. These goods are all warranted to be of superior make. Call at their store and examine for yourself. No trouble to show their goods, and our word for it they will bear inspection. S.T.TH:T.

Alleged Larceny.—Mrs. Caroline Wells made information before the Mayor yesterday, charging Mary Jane Silvers with larceny. It appears that the accused has for several days past been stopping with Mrs. Wells, who resides at the corner of Canal and Penn streets, and yesterday, it is alleged, she left the premises, taking with her a quantity of clothing. She was arrested and held for a hearing.

The ex-Chief of Police.—In retiring from the office of Chief of Police, a position which he so ably filled, Mr. Matt Green carries with him the respect of the community and those who have been brought in contact with him in his official capacity. He yielded a highly responsible and remunerative mercantile situation to accept the position of Chief of Police, and that he developed rare tact and ability for the faithful and competent discharge of his duties is attested on all sides.

Slight Fires.—There were two alarms of fire yesterday, but there was no serious damage done in either case. The first alarm was from box 67, Penn and Wilson streets, at about ten o'clock, and was occasioned by a slight fire at McKelvey's oil refinery. The second proceeded from box 12, Liberty and Sixth (formerly St. Clair) street, at about half past three o'clock, and was caused by a slight fire in the second story of MacKeown & Bros. Drug House, 187 Liberty street. No damage done.

Terrible Accident.—A terrible and fatal accident happened at Freedom, Beaver county, on Saturday evening last. A farmer by the name of James Wolf, while driving a wagon load of stone over the railway crossing near that place, was instantly killed by the express train west of the P., Ft. W. & C. R. R. The wind blowing very hard prevented the unfortunate man from hearing the train, which struck the wagon, demolishing it, and throwing Mr. Wolf on the track, literally tearing him in pieces, as he was run over by the entire train.

At the regular meeting of the Grant and Colfax Club of the Seventh and Eighth ward held last evening, after the transaction of the regular business of the Club, on motion of Mr Sam. Kilgore, the following resolution was passed unanimously:

Resolved, That the thanks of our "Marching Phalanx" are hereby returned to the patriotic ladies of the Seventh and Eighth wards for the beautiful emblem of our nationality, the "star spangled banner" presented to us on Tuesday evening, October 6th, also to David Reed, Esq., and Major E. A. Montooth for their presentation and reception speeches, and to Jared M. Brush, Esq., for the hospitalities extended to us.

Punshon's Lectures.

Our readers will be glad to know that Mr. Punshon, who is regarded among Englishmen as the foremost lecturer of the age, will lecture on Wednesday and Thursday evenings of this week, in the Keystone Rink, Allegheny. When he lectured in Chicago, enough tickets were sold in a single day to crowd the Crosby Opera Hall, and afterwards as much as fifteen dollars were offered for a single ticket. The opportunity to hear him should be improved by all who wish to study oratory at the feet of a living master. See advertisement elsewhere.

LOCAL PREACHERS' CONVENTION.

MORNING PROCEEDINGS.

The Association re-assembled at nine o'clock yesterday morning, and was called to order by the Chairman.

Exercises were opened by singing the hymn commencing—

"Guide me, O, thou Great Jehovah."

After prayer by Rev. Mr. Forsyth, of the Baltimore Conference, the minutes of the preceding session were read.

A paper read by Rev. W. H. Kincaid, referring to the Committee appointed to attend the General Conference, was referred to the Business Committee.

On motion, Rev. W. H. Kincaid was added to the Business Committee.

Rev. Mr. Ingraham desired to be relieved from serving on the Business Committee, in consequence of other duties interfering. He suggested that Rev. Mr. Farrant be substituted in his place. The suggestion was adopted.

The Secretary read a communication from Bishop Simpson, and also one from Rev. W. H. Depuy, pastor of the John street M. E. Church, New York. The communication from Bishop Simpson was of a congratulatory character. The communication from Rev. Depuy contained a request that the Association elect representatives to attend the Centennial anniversary of that Church, which will be celebrated on next Sabbath.

A communication from the Troy Conference, requesting that action be taken on the movement for the erection of a monument to the memory of Rev. Philip Embury, the pioneer local preacher of the country, was read.

On motion, the matter was referred to a Committee of Five.

Rev. J. M. Goldy, of Philadelphia, offered a resolution that the names of delegates, and their postoffice address, be published in the minutes of this Association. Carried.

Rev. C. C. Leigh, Chairman of the Special Committee, appointed to consider the position of Local Preachers, and to suggest measures for bringing them into more effectiveness, presented a report.

This report notes the increase of the Lay Preachers, which during the past century had increased from a unit to 13,208, being co-workers with the regular ministry, tending to bless the Republic with a free Gospel, spreading Christian holiness throughout the land. Certain changes were demanded, such as power to increase their numbers, and expel improper members; to employ this mighty host of workers to the best advantage in the cultivation of Emanuel's land. It also recommended a power to prescribe fields of labor for Local Preachers and exhorters, holding them to a strict accountability for the faithful performance of their work.

A resolution was offered recommending the appointment of a Publishing Committee, giving them the power to publish a monthly magazine to be devoted to the interest of the Local Ministry, and approving the plan recommended by the General Conference Committee on Local Preachers at the last General Conference.

Pending the adoption of the report the hour for adjournment arrived, and the Convention adjourned to allow the delegates an opportunity to listen to the annual sermon, delivered by Rev. Mr. M'Killop, of Brooklyn, New York.

RELIGIOUS SERVICES.

The services commenced at 10½ o'clock, with the 195th hymn and prayer by Rev. James Riddle, of Delaware. Rev. John McKillop read the scripture lesson from Isaiah 52d chapter and Ephesians 4th chapter.

Rev. J. McKillop then delivered the annual sermon from the words "I have set my watchers on the wall," &c., Isaiah 62d chapter and 6th and 7th verses. The sermon was one of great power, and elicited the earnest attention of the congregation throughout. At its conclusion all united in singing the hymn commencing

"All hail the power of Jesus name,
Let angels prostrate fall."

After which the Holy Sacrament was administered by Rev. E. B. Snyder, of the North Avenue M. E. Church, Allegheny, assisted by other ministers, and the congregation was dismissed with the benediction.

AFTERNOON SESSION.

Reassembled at three o'clock, President Hefner in the Chair.

The 183d hymn was sung, followed with prayer by Rev. Mead, of the New York Conference. The minutes of the last meeting were read and approved.

The report of the Special Committee on the Situation of Local Preachers was the first business in order.

Rev. McKillop offered a resolution, that so much of the report as embraces the recommendation of the Committee of the General Conference for a change in the Discipline of the Church respecting Local Preachers, be printed in the minutes, but, be laid on the table until the next meeting of the Association when the propriety of petitioning the General Conference for its adoption may be discussed. Adopted.

Rev. C. C. Leigh moved that so much of the report of the Committee as related to the publishing of a magazine be taken up. Carried.

This part of the report was the recommendation for the appointment of a committee of three with power to publish a monthly magazine, to be devoted to the interests of the local ministry, exhorters and lay workers in the Church.

After some discussion, the committee was made to consist of five, and the recommendation agreed to.

Rev. Dr. G. C. M. Roberts, of Baltimore, Revs. John McKillop, C. H. Applegate, C. C. Leigh, of Newark, and Rev. W. H. Kincaid; of Pittsburgh, were appointed said Committee.

The resolution recommending Local Preachers of the different annual Conferences to organize immediately Conference Associations, and send delegates to the National Association of the United States, was adopted.

The report of the Financial Committe was received after some discussion, and adopted. The assessments amounted in the aggregate to one hundred and sixty-four dollars, which was proportionately assessed upon each Local Association.

The Committe on Correspondence to whom was referred the Communication of Bishop Simpson and others, presented their report, directing the Secretaries to express by letter, the thanks of the Association to the Bishop for the interest which he manifested in its success, recommending the appointment of a Committee on Contributions, for the purpose of securing funds to erect a monument to the memory of Philip Embury, the Father of American Methodism, as suggested by the May Conference.

Recommending the appointment of a Committee, consisting of W. H. Dikeman, J. M. Howe and John Cottier, to take measures towards the celebration of the centennary anniversary of the old John street Church.

The report was received and adopted.

The Chair appointed, on the final recommendation regarding the Embury movement, Rev. C. H. Applegate, New York—East Conference; Dr. J. M. Howe, New York; John Forbus, Cincinnati; Joseph Riddle, Delaware; Thain Ball, Pittsburgh; W. P. J. Ingraham, Philadelphia.

The report authorized Rev. W. H. Kincaid to prepare a circular in the interest of the Association, and forward a copy to each of the Bishops with a request that they lay it before all the annual conferences for action.

Rev. Mr. Kincaid was instructed to attend to the publishing of the minutes of the present session of the Association.

Recommended to all the members of the local ministry the propriety of abstaining from the use of tobacco.

Expressed cordial interest in and pledged the hearty support of the Association toward the advancement of the temperance cause.

The report was considered *seriatim* and adopted.

Resolutions of respect to the memory of a member of the association, and lately one of its officers, G. P. Disosway, were presented and ordered to be recorded in the minutes, and ordered to be published in the Pittsburgh *Christian Advocate*, Methodist, New York *Observer*, New York *Christian Advocate*, and a copy forwarded to the family by the Secretary.

Rev. J. H. Kennedy offered a resolution expressing appreciation of the labors of those local ministers who are engaged in the Home Mission work. Adopted.

President Hefner now introduced Dr. Pershing of the Pittsburgh Female College, who invited the delegates to pay a visit to the College building and partake of a banquet tendered them by the pastors of the city at the close of the evening session.

On motion of Rev. John Cottier, the invitation was accepted.

Dr. J. L. Read was next introduced, and invited such of the delegates as had time, to visit and examine the new building now in course of erection for the book Depository and *Christian Advocate*.

Rev. Mr. Fields, in behalf of Trinity Church, Philadelphia, extended the Association a cordial invitation to hold their next Convention in that Church.

Rev. Mr. Farrant also extended a similar invitation from the Trustees of the Union M. E. Church of Philadelphia.

Invitations were also received from Cincinnati and Columbus.

After some discussion, the invitation coming from Cincinnati was unanimously accepted, and the time of meeting for the last Saturday in October.

Adjourned with the benediction, to meet at seven o'clock.

EVENING SESSION.

At seven o'clock the meeting came to order with the President in the Chair.

A short time was spent in devotional exercises, after which the minutes of the afternoon session were read and approved.

The unfinished business of the afternoon session was taken up and disposed of.

On motion, Rev. John M. Killop was tendered a vote of thanks for his able and eloquent sermon of the morning.

A resolution was presented asking for lay representation in the General Conference. After some discussion it was referred to the Business Committee.

The Business Committee presented a resolution requesting traveling ministers to so make their arrangements as to give the local preachers plenty of work. Adopted.

The delegates were requested by resolution to leave their Postoffice addresses for publication in the minutes of the Association.

On motion of W. H. Kincaid, a vote of thanks was tendered to the Pennsylvania Central Railroad for their liberality in lowering the rates of fare to delegates. To the Trustees of Christ M. E. Church; to the Committee on Preachers' Meetings and Local Committees; also, to the families who entertained the delegates, and to the sexton of the Church.

Rev, McFarland read a resolution, requesting all members of the Association to furnish at the next meeting, written statistics of their work during the year.

After some discussion the resolution was lost.

The President then read a list of the Standing Committeees for the ensuing year.

Rev. Mr. Gurney was elected to preach the next annual sermon.

On motion of Rev. C. C. Leigh the thanks of the Association was tendered Revs. W. H. Kincaid and D. T. McFarland for the able and highly efficient manner in which they had dischanged the duties of their offices, not only during this, but in former years.

A unanimous vote of thanks was also tendered to President Hefner for the courteous and Christian like manner in which he presided at the present session of the Association.

The President in behalf of the sexton of the church, tendered his thanks for the liberal donation which they had presented him for his services.

On motion of Rev. W. H. Kincaid, a series of resolutions was passed regarding the Tract, Sunday School, and Missionary Enterprises.

Rev. John Cottier then made a short address on the duties and responsibilities of the local ministers office.

Dr. L. F. Morgan, pastor of Christ Church, occupied a few moments in making the closing address. He had never felt in his life so much tempted to become a local minister and join with them in their work. He hoped that the proceedings of the Convention might be productive of great good in awakening activity among the local brethren of Pittsburgh and vicinity. He bid them God speed in their noble enterprise, and hoped that as a result of their labors they might witness on every hand the work of the Lord abundantly prosper in their hands.

The business meeting of the Convention then adjourned with singing the doxology.

The delegates and invited guests, in response to the invitation of Dr. Pershing, then retired to the chapel of the Female College, where an entertainment had been provided for them.

IN THE CHAPEL.

A few minutes after the adjournment of the business session an organization was effected in the neat and tastefully furnished chapel of the college by the election of the following officers:

President—Rev. John F. Dravo.

Vice Presidents—Rev. E. Hefner, Rev. J. Riddle, Rev. J. Cottier, Rev. C. C. Leigh, Rev. W. H. Dikeman, Dr. L. F. Morgan, Dr. H. Miller, Rev. S. M. Hickman, Rev. J. A. Miller.

Secretaries—Rev. W. H. Kincaid, Rev. D. T. Macfarland, Rev. W. H. Locke, Rev. C. H. Applegate.

After the officers had taken their seats on the platform the audience was favored with a selection from "Faust," rendered in excellent style, by Prof. and Mrs. Blessner.

Rev. Dr. Nesbitt, of the Pittsburgh *Christian Advocate*; J. W. Loane, of Baltimore; A. W. Gurney, of Indiana; J. W. Riddle, of Delaware; C. H. Applegate, of New York, and J. W. Forbus, of Cincinnati, were called upon and made short and pertinent speeches of five minutes length each.

The speeches were interspersed with vocal and instrumental music by Professor and Mrs. Blessner, and the Misses Sawyer and Kimball, who performed their several parts in the entertainment admirably, eliciting hearty applause. At the conclusion of these exercises, President Pershing announced a change in the programme, and under his direction the guests found their way to another portion of the building, where had been spread

THE BANQUET.

When the services had concluded in the chapel, at the invitation of Dr. Pershing, the company adjourned to the dining room, where a most sumptuous repast awaited them. Two tables, extending the entire length of the spacious room, were fairly groaning beneath the weight of good things which had been prepared for the occasion. It is only necessary to say that the banquet was prepared by Mr. Jacob Hubley, of Fourth avenue, in accordance with Dr. Pershing's liberal directions.

When all the guests were properly arranged in the room, at the request of Dr. Pershing, Rev. Father Collins implored the Divine blessing upon the repast. The company were then served with the substantials of the feast, after which came the delicacies, and notwithstanding the large number present, there was an abundance for all. We have never before seen an affair of its character so admirably arranged and conducted with so little confusion as was this one. The entire dining hall was filled from one end to the other, yet all were served in a remarkably short space of time.

Mrs. Pershing did the honors of the table in a highly commendable and accomplished manner, while the Doctor and his charming daughters were ever attentive to the wants of the guests, seeing that those present were properly supplied and provided for, and in this respect they received the valuable assistance of a number of the teachers and larger pupils of the school.

The affair was a delightfully pleasant one, and will long be a green spot in the memories of those who had the pleasure to participate in it.

THE FINALE.

At the conclusion of the banquet the guests returned to the chapel, when after returning a vote of thanks to Dr. Pershing and his estimable lady, the Convention adjourned to meet in Cincinnati, on the last Saturday of October, 1869.

Sabbath School Teachers' Union.

The teachers of the Sabbatn Schools of the United and Reformed Presbyterian churches of Pittsburgh and Lawrenceville held their regular monthly meeting last evening in the First Reformed Presbyterian church. Mr. J. A. Macrum, President, occupied the chair, and Mr. F. R. McCutcheon acted as Secretary. The President led in devotional exercises, and, after the reading of the minutes of the former meeting by the Secretary, the following question was proposed for discussion:

What are the best means to be employed to extend the Sabbath School cause in our county?

This question was discussed at some length by Rev. Dr. Douglas, T. H. Rabe, Esq., Mr. William Fleming, Rev. Mr. Rossiter, Rev. J. S. Sands, Messrs. Hugh McMaster, John Montgomery and others.

On motion, it was resolved to assemble the Sabbath Schools on Thanksgiving day, and have the usual Thanksgiving celebration.

The following question was then discussed: "Is it proper to have written essays read in Bible classes?"

There was a diversity of sentiment in the meeting upon this subject.

The Executive Committee were instructed to make arrangements for the Thanksgiving celebration.

After hearing the report of the Business Committee, the meeting adjourned, Rev. Dr. Douglas leading in prayer.

The Fall and Winter Trade, and how our Merchants are Prepared for its Transaction.

The approach of Winter has put fresh life into the arteries of trade, and already our wholesale and retail merchants and dealers are rejoicing in large sales. The smaller dealers, many of whom are now in the city from the thriving villages and towns which surround our city, come prepared to buy larger stocks of goods than usual, as they partake of the almost universal feeling that business of all description will prove much better the present season than for many years past. They have found from experience that they can save much money in directing their patronage to the leading houses of Pittsburgh, rather than to dealers and jobbers of the eastern cities. It requires but few figures to show this to be the case. Our representative houses, such, for instance, as that of Arbuthnot, Shannon & Co., No. 115 Wood street, the extensive and well-known dry goods dealers, have strengthened themselves for the season with very heavy stocks. We cite this house, knowing of the splendid assortment of goods they have just received, and which they offer at as low figures to their patrons as prevail in the Eastern markets. Every department of their commodious house is stocked to its fullest capacity with fresh new goods, embracing all the latest styles and novelties in the dry goods line, and the firm are better than ever prepared to compete with rival houses East or West. They are the Agents for the popular Fullerton barred flannels and Greenville flannels and blankets, of which they have a full supply, which they offer at very low figures to the trade. Those of our readers in the city who desire to lay in a stock of goods, or who are making up their orders, should not fail to bear the superior claims of this staunch and sterling house in view.

Flag Awarded.

The Committee to award the flag prepared by the loyal women of Allegheny City to be presented to the delegation turning out the largest number of voters in the torchlight procession of the night of October 12th in proportion to the number of Republican votes cast at the election of October 13th, have awarded the same to the Sixteenth ward, Pittsburgh, The competition was narrowed down to Neville township and the Sixteenth ward. Neville township paraded forty-one men in the procession and polled forty-three Republican votes; the Sixteenth ward paraded, according to our count, one hundred and seventy-four men in the procession, and polled one hundred and seventy-eight votes. The proportion being in favor of the latter, we have awarded the flag accordingly.

The Committee regret they had not two flags to award—one to each. The Republicans of Neville behaved so gallantly in turning out all its voters but two, in the procession, as to richly deserve a flag as a testimony to their zeal and devotion to Republican principles.

Amusements.

OPERA HOUSE.—One of the largest audiences appearing at the Opera House during the present season, assembled last night to see Mr. John E. Owens as "John Unit," in Mrs. Bateman's great play of "Self." This is undoubtedly Mr. Owens' strongest character, and he is to the character just what it is to him. The piece is a good one throughout, and is remarkably well cast. The different members of the company are all well up in their parts, and as almost every character, affords an opportunity for some display of the actor's ability, the company play with more life than we have ever seen them do heretofore. Everybody should see "Self." Each evening's entertainment will conclude with one of Mr. Owens' popular farces.

MUSEUM.—Major Burnell has a most admirable collection of natural and artificial curiosities at his popular Museum, in Franklin Hall, Fifth avenue.

Great Bargains and no Mistake.

The ever progressive Masonic Hall Auction House of Messrs. H. B. Smithson & Co., Nos. 55 and 57 Fifth street, have determined on astonishing the business community hereabouts with an immense stock at low prices. They have just supplied themselves with a fresh assortment of goods which, in point of elegance, variety, quality and quantity, will equal any they have ever opened. It embraces nearly all lines of goods, boots, shoes, gaiters, ladies' and misses' balmorals, the finest blankets in the city, shawls, spreads and quilts and domestic goods generally. The prices are absolutely low and the bargains offered are in reality greater that any than have ever been given in the city, not even excepting this house itself. Wholesale dealers, as well as retail patrons will find it largely to their advantage to call and examine the fresh stock now to be found at the Masonic Hall auction rooms.

Admitted to the Bar.

On Saturday, on motion of General F. H. Collier, William S. Miller, Esq., was admitted to practice law in the courts of Allegheny county. Mr. Miller stood the customary rigid legal examination in a manner highly creditable to himself, and fully proving that he has been a close student. He is a young gentleman of talent, moral worth and strict integrity, and, we doubt not, will soon attain position amongst the leading members of the profession in this county. We wish him all the success his industry, energy and attainments should warrant.

Ruins of Antiquity.

"There is a temple in ruins stands,
Fashioned by long-forgotten hands;
Two or three columns and many a stone,
Marble and granite with moss o'ergrown."

The ruins of great cities that existed many years ago, and that have long since crumbled into dust, with the exception of here and there the relic of some noble and majestic structure, that, by reason of their more perfect architectural arrangements and the indestructibility of their material, stand as monuments of the scientific abilities of their projectors, are studies that interest the antiquarian: and although the celebrated and popular house of William Fleming, No. 139 Wood street, cannot boast the wonderful antiquity that runs back to the rusty records of seventeen hundred and ninety-seven, at which time the proprietor and all his competitors were in the loins of their fathers, yet this great representative Hat and Ladies' Fur House may well claim to be among the oldest and most reliable in the city, and to have sold more goods and built up a larger trade than any other in the same line of business has been able to do in the same number of years. The system of large sales and small profits pursued, together with the utmost care in laying in nothing but prime goods of the latest and most desirable styles, added to this very important feature, that no salesman in this extensive and popular establishment is permitted to make any misrepresentation for the purpose of accomplishing a sale, has, no doubt, been the means of drawing to it so large a trade. This house is constantly thronged with customers who appreciate the advantage of being able to save from fifteen to twenty-five per cent on their purchases.

Stained Glass.

Among the remarkable improvements in American manufactures nothing is more noteworthy than the great stride which has been made within the last few years in the business of staining and enameling glass. Up to a recent date the consumer has depended, in a large measure, upon the English manufacturer. As a matter of course, the carriage alone, leaving out the dealer's and manufacturer's profits, imposed a large tax on the consumer; sufficient, indeed, to justify the establishment of the business in our own country. Glass staining, however, to be conducted properly, should be combined with glass making. The glass stainer who depends upon the glass manufacturer for his material, is limited in his operations, and necessarily requires more time to complete his work. The manufacturer, on the other hand, has extraordinary facilities for staining and enameling unlimited quantities in a fraction of time required by the glass stainer. Page, Zellers & Duff, No. 8 Wood street, may be termed the pioneers of the new movement. They have demonstrated the fact that an article in every way equal to English stained glass can be made at rates favorable to the consumer. They are now prepared to fill orders for every style of plain white, chaste and elaborate designed stained and enameled glass, for public and private buildings, elegant transoms, side lights, transoms for business houses, with name of firm and number of street, &c. When the PLANTATION BITTERS were first made known to the American people some seven years ago, it was supposed they were an entirely new thing, and had never before been used. So far as their general use in the United States is concerned, this may be true. It is also true that the same Bitters were made and sold in the Island of St. Thomas, over forty years ago, as any old planter, merchant or sea captain doing business in the *West Indies* will tell you. It is distinctly within my recollection that on the return of my father (who was a sea captain, and doing an extensive trade in the tropics,) he would invariably have the Bitters among the ship's stores, and our family sideboard was nevar without them. For any sickness, it matters not how severe or trifling, the decanter of these Bitters, by a different name, was always resorted to as a sovereign remedy.
